

=====

DECODELABS ACTIVE PREDICTION SUITE: MATCHMAKER RECON ENGINE

Batch: 2026 | Project 3: AI Recommendation Logic

=====

-> Similarity Processing Core Engine successfully initialized.
-> Ingested 8 distinct operational vectors out of source metadata profiles.
-> Mathematical Vector space dimension mapped to: 75 target tokens.

[FEATURE 1 & 2] Initiating Structural Onboarding Questionnaire...
-> Please specify professional technical credentials to bootstrap baseline vector.
-> Type 'exit' at any parameter checkpoint to close the engine instance.

Enter Key Skill Coordinate #2: aws
Enter Key Skill Coordinate #3: kubernetes

[FEATURE 3] Launching Live Digital Matchmaker Engine...

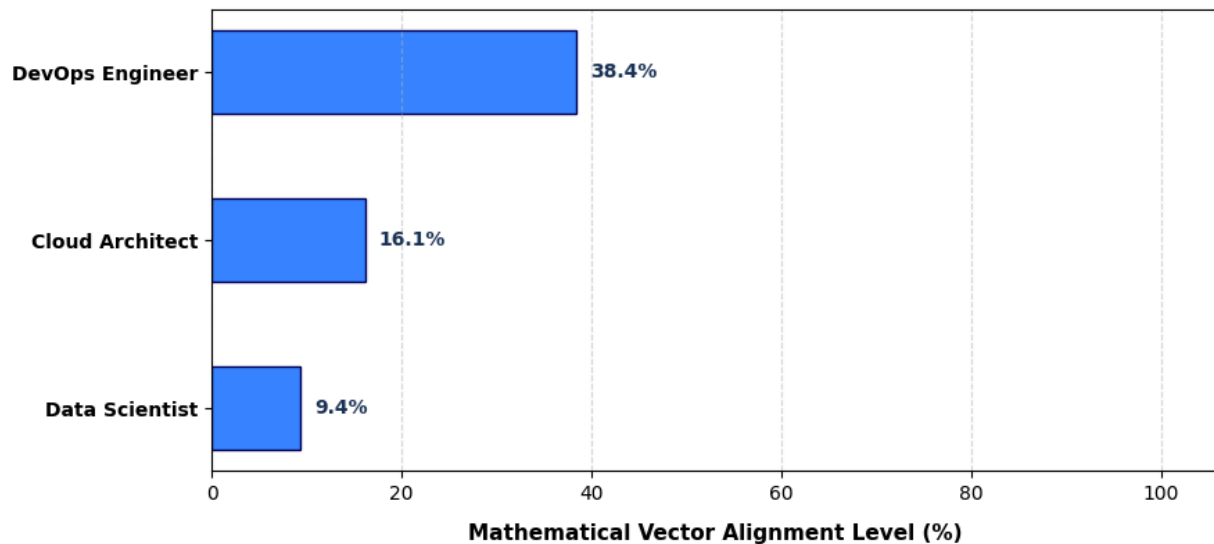

===== CHOSEN VERDICT MATCH DATA =====

Rank	Recommended Professional Track	Confidence	Profile Alignment
#1	DevOps Engineer	38.41	%
#2	Cloud Architect	16.11	%
#3	Data Scientist	9.38	%

=====

[FEATURE 4] Generating Multi-Dimensional Alignment Bar Chart Visual...
-> Data visualization frame successfully computed. Rendering visualization display window now.

DecodeLabs AI Matchmaker Analytics: Top-3 Career Proximity Vectors
